

Next-Generation Industrial Location Tracking

Eliko is one of the top providers of accurate and reliable tracking solutions for indoor and outdoor applications. Using Ultra Wideband and GNSS our system creates complete transparency into processes.

Founded in 2004

Long-term partner with 15+ years of experience.

Reliable & Flexible

Eliko adapts to customer needs and offer full life-cycle solution support.

Global operations

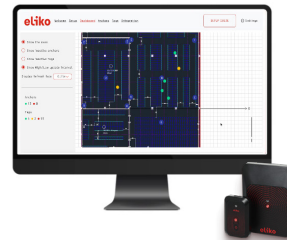

Eliko works in 30+ countries across several industrial verticals.

Improve Efficiency on the Production Floor

- ◆ Measure time in production processes automatically
- ◆ Discover and prevent unplanned stops to improve OEE
- ◆ Automate process steps using real-time location data
- ◆ Prevent time spent on searching for tools

"Location-tracking enables to save time, money and reduce the CO2 footprint. Together with our partners we make this a reality. In us you'll have a long-term, reliable solution partner."
