

MILITARY PRODUCTS MADE OF TECHNICAL TEXTILES

GALVI-LINDA

**FROM PROFESSIONALS
TO PROFESSIONALS**

Galvi-Linda AS, an Estonian large-scale manufacturer, benefits from more than 20 years of experience in the manufacture of military, law enforcement, and outdoor equipment made of technical textile, leather, and synthetic materials.

A COMPANY WITH HISTORY

The company's roots date all the way back to 1939 when seven enterprising craftsmen founded a labor corps which years later gained wider fame as a leather product manufacturing business.

Today's Galvi-Linda AS began its journey in 1991 when public stock company Linda was privatized.

We have been manufacturing premium quality textile products for Estonian Defence Forces, Police and Border Guard Board, Defence League, Rescue Board, Tax and Customs Boards, ambulance teams and to numerous private businesses ever since.

By way of subcontracting we engage in long-term cooperation with many well-known companies manufacturing special purpose products (Germany, Great Britain, Norway, Sweden and Finland).

We employ approx 100 highly qualified workers.

MAIN PRODUCTS AND SERVICES

- **SPECIAL PURPOSE BAGS** (military and medical backpacks, hiker's backpacks, gun bags and carry bags)
- tactical and bulletproof **VESTS**, reflective vests
- **MILITARY TENTS**
- **WEATHERPROOF CLOTHING** (rainsuits, tentcoats)
- **MILITARY CLOTHING** (winter and summer uniforms, underarmour shirts)
- **MILITARY HARNESSSES** with attached pockets
- **LEATHER PRODUCTS** – driver's license and document covers
- **PVC ITEMS** (large water containers, waterproof covers and boat covers used in agriculture and hunting)
- **PET ACESSORIES** (reflective vests and mattresses)
- **SPECIAL PURPOSE LIFE JACKETS, SURVIVAL SUITS AND CAMPING TENTS** manufactured from superlight materials by way of subcontracting

Our services include

- sewing work on special purpose machines
- cutting-out with Lectra automatic fabric cutter
- product development – pattern design in Lectra Modaris and prototype production
- material and component search based on customer requirements
- transport arrangements for consignees

QUALITY

We apply the highest quality requirements to each and every order. Our strength derives from long-term manufacturing experience, reliability and flexibility. Our long-standing customers' appreciation of their cooperation with Galvi-Linda stands as proof of all of the above.

In 2002 a quality management system was introduced in the company as adhering to requirements of the international quality standard ISO 9001.

Quality assurance is additionally guaranteed by our qualified and experienced staff and quality control applied in different stages of the production process.

Keeping in mind our customers' needs, our goal is to provide professional premium quality services, proceeding from our many years of experience.

ALL THE PRODUCTS ARE MANUFACTURED IN OUR FACTORY GALVI-LINDA (ESTONIA, EU)
